(54) Title: CAROUSEL MIXER

(57) Abstract: The present invention concerns mixers for particulate matter, particularly powders, and methods of mixing same. Carousel mixer comprising a plurality of vertically-arranged levels (10, 20, 30, 40) of mixing compartments (50), each level of mixing compartments comprising M exponent N compartments (50) where M is more than or equal to 2 and N is more than or equal to 2, each compartment (50) having an openable bottom, each level of compartments (10, 30) being rotationally displaceable relative to the adjacent level or levels (20, 40), and there being at least N+1 levels of mixing compartments.
